

Comparison of ENCH Tracks

All tracks lead to the BS in Chemical Engineering (ENCH) and require the same chemical engineering core classes. The primary differences are in the science degree courses and technical electives that are taken. Prerequisites must be fulfilled to register for courses and meet the degree requirements.

* **Gateway Courses:** Chemical Engineering Gateway Courses: ENES 101, MATH 152, CHEM 102, ENCH 215 . Students are identified as pre-chemical engineering (PECH) until they pass (see policies for passing requirements for Gateway Courses) the required 4 courses. Students must select a track to complete—Traditional, Biotechnology/Bioengineering or Environmental Engineering and Sustainability.

Advising: Students taking the Gateway courses are advised by COEIT Advising. <https://advising.coeit.umbc.edu/>.
